“ Miss Louise always made a point to drive around to all the children’s homes and give small gifts during any holiday. Even if she only met them once! She was a dear sweet soul and had so much love in her heart. She’s dearly missed.

Louise, Thank you for being a friend and for being so dedicated to the lives of others. I will not forget the drives we took to pick up parents who did not have transportation to get to testing appointments. Your selfless actions will remain as one of my most precious memories.

“ My wife, Miesha and I were stuck between a rock and a hard place. We had no idea where or who to turn to regarding our two autistic children. With a quick call of a family friend Dr. Louise contact us! Before we could make it through a solid week of guidance, calls came pouring in with APS autistic based programs that would help promote growth and wellness. She even explained how important it was to “officially” diagnose our babies with the state because there was much more to take advantage of. Due to our entire support system of family (Susan Ridley) and friends (Freeda Hill), Dr. Louise paved a way for ABA Therapy and Public School Education for our children. Our son speaks sentences and now reads books, while his sister (who WAS non-verbal) is saying words and communicating effectively. As you see, Dr. Louise had awesome friends who in return shared her as our blessing. It’s safe to say that the Doc personally touch EVERY generation before her sunset. Thank You Doc! We ALL love you.

Well Doc, take your rest. You are in the arms of your all mighty God. I met this brilliant woman at Bob Mathis School. We met on the stairwells. I was going up and she was coming down. No stranger at all. Our friendship started there and never ended. My Dekalb co-worker, my Alum friend, just a friend!! Lou, Doc, Weezy, you will truly be missed. Our last in person was homecoming, 2023, at Dear ole Morris Brown. You were doing your thing on the ground. Rest on my sister, Rest on.
